

USRN

— PARTNERS —

As a diversified healthcare leader, our solutions help patient's access life changing care. We equip health systems and clinics to operate more effectively. Our mission is to improve patient outcomes.

Who is USRN Partners

USRN is a Clinician Owned organization dedicated to providing high-quality patient care.

Our multispecialty clinical teams and dedicated leadership will ensure your patients have uninterrupted access to high-quality, cost effective care at each stage of their journey.

We deploy physicians and clinicians who are engaged, compassionate and elevate the patient experience from admission to discharge.

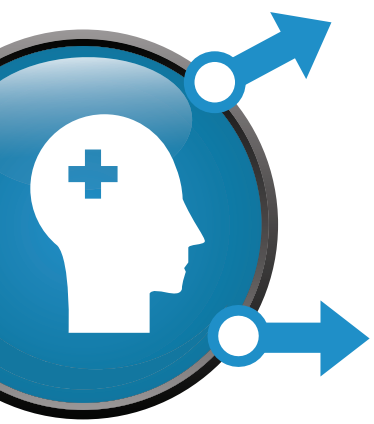

Simply put, we allow healthcare organizations over a multi-year period to **increase retention rates, reduce costs and improve patient outcomes.**

USRN Partners Company Overview

- Experts in Physician, APP, Nursing, Therapy and Technician services
- Permanently stabilize workforces with clinicians who have a financial incentive for the success of the patients and medical group
- Ability to create higher throughputs and lower latency
- Work with health systems, hospitals, multi-specialty groups, FQHC's, ASC's and private practices
- Servicing clients in 8 states
- 150+ internal employees across our office network
- Currently servicing over 350,000 patients per year
- Proprietary USRN dashboard to ensure an effective ongoing medical compliance program

Differentiators

Ownership Culture

Employers receive topnotch USRN clinicians, local to their area and who have a financial incentive for the success of the patient and medical group. We are firm believers that ownership leads to better patient care.

Focus on Retention

USRN Turnover Rates (*Last 12 months*)

RN's	3%
APP's	0%
Physicians	0%
Technologists	5%
Therapists	4%

National Average Turnover Rates

22.5%
12%
7.5%
20%
16%

Continuity of Care

USRN works with clients who want to stabilize their workforces, and rid themselves of using staffing, travel nurse or locum firms. Additionally, we work with healthcare organizations that have recruited, hired and trained staff; only to see them exit a year later. With USRN as your trusted partner, the headaches of dealing with clinician turnover come to an end.

Clients outsource entire departments or a specified number of roles to USRN from anywhere from 3-5 years. If we hit our KPI's and adhere to the standards we set forth in our agreement, clients will immediately become fully staffed, see decreases in attrition costs, increases in revenues, terrific continuity of care, significant improvement in employee morale and better patient outcomes.

Thank You!
